

NAVY WAR INVENTIONS.

Out of 35,000 Submitted to Britain Only Two Are Accepted.

WASHINGTON, Oct. 4.—Since the beginning of the war 35,000 military and naval inventions have been submitted to the British Government. It was learned from official sources here today that of these, all but eighteen were rejected immediately. After some study, five of these eighteen were selected for further tests. Two of these last five were accepted.

The Navy Department, it was learned, has both these inventions. One of them is an improved naval searchlight.

GAS KILLS TWO MEN IN BED.

Roommates in Boarding House Asphyxiated as They Sleep.

Peter Basal, twenty-two years old, and Gunolo Moran, thirty-two, steamship firemen, who roomed together at No. 13 Union Street, Brooklyn, a Spanish boarding house, were found dead in bed today. When they failed to appear at the breakfast table, the housekeeper went to their room and detected the odor of gas.

A policeman broke down the door and discovered their bodies. Gas was flowing from an open jet and the windows were closed. The police regard their deaths as accidental.

News Oddities

THE SPIRIT OF '76.—A New York court decided that a man has a right to laugh out loud in a movie if he wants to.

MORE STRIKES.—Swedish-American liner brought in 193,660,000 boxes and there are matches to burn.

PLEA he had imbibed twenty-four mixed drinks at a party acquitted actor accused of being a burglar.

WHEN DOES HE LOAF?—J. F. Maloney, at Mill Rift, Pike County Pa., is Postmaster, Town Clerk, School Superintendent, Public Appraiser, Supervisor, ticket, baggage, telegraph agent, owner of hotel, milk station, theatre, and proprietor of general store.

BECAUSE his "hand sewed" shoes had nails, Wisconsin man has sued maker for \$10,000.

CALIFORNIA BRIDEGROOM used same wedding ring that his father and grandfather used seventy-five and thirty-five years ago.

Woman Dead in Potomac Identified.

WASHINGTON, Oct. 4.—The body of a woman found floating in the Potomac near Mount Vernon more than three weeks ago, was identified today as that of Mary E. Swartz, widow of Dr. P. B. Swartz of Chicago by her brother-in-law, John E. Swartz.

PARALYSIS SUDDENLY JUMPS TO 23 NEW CASES

Increase Comes Just as the Epidemic in the City Is Declared "Officially Ended."

There was a big increase in the number of new cases of infantile paralysis reported for the twenty-four hours ending at 10 A. M. today, although the epidemic is officially at an end, so far as the Federal medical authorities and the Board of Health are concerned.

Twenty-three new cases were reported today as against twelve yesterday and seven deaths as compared with eight yesterday.

Federal physicians engaged on the inter-State inspection and quarantine work received notice today to discontinue their inspections and allow children to be carried in and out of the State.

Figures for today and yesterday follow:

NEW CASES.		
Boroughs.	To-day.	Yesterday.
Manhattan	10	4
Bronx	6	3
Brooklyn	4	2
Queens	2	2
Richmond	0	1
Totals	22	12

DEATHS.		
Boroughs.	To-day.	Yesterday.
Manhattan	4	3
Bronx	1	2
Brooklyn	1	2
Queens	1	1
Richmond	0	0
Totals	7	8

GRANDMA USED SAGE TEA TO DARKEN HAIR

She mixed Sulphur with it to Restore Color, Gloss, Youthfulness.

Common garden sage brewed into a heavy tea with sulphur added will turn gray streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a 50-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.

—Adv.

NOTED WOMEN BEGIN MOVEMENT TO HELP PARALYSIS CRIPPLES

Miss Curtis and Mrs. Lydig Head Society to Aid Victims —State Also Has Plan.

With Miss Fanniebell Curtis as Chairman and Mrs. Philip M. Lydig as Vice Chairman, a Sick Children's Transfer Society has been organized to aid children who have been afflicted by infantile paralysis in the months of after-treatment needed to bring about recovery.

This after-treatment includes muscle training and massage, which must be given at the orthopedic hospitals and dispensaries, and the work of the society will be to transport the suf-

ferers between their homes and such institutions.

One ambulance has already been given to the society and will be put into commission at Mrs. Lydig's home, No. 14 Washington Square North, tomorrow afternoon. It is hoped a service of fifty ambulances can be established.

The society is working in cooperation with the New York Committee for the After-Care of Infantile Paralysis Victims. A special kindergarten for crippled children between four and six years old is under consideration. Contributions may be sent to Miss Curtis, Mrs. Lydig, Mrs. J. Clifton Edgar or Miss Sara Graham Mulhall.

ALBANY, Oct. 4.—A movement to organize a comprehensive plan for after-care of infantile paralysis patients was announced today by Dr. Linley B. Williams, Deputy State Commissioner of Health. He said the department had secured Dr. Robert W. Lovett, professor of orthopedic surgery at Harvard, who has made a study of infantile paralysis.

Clinics will be held in various places where persons have recovered from the disease.

Of the 3,381 cases of infantile paralysis in the State up to the present

time, outside Greater New York 2,712 of the patients have recovered, and Dr. Williams plans to have every one of them examined.

FIGHT OVER BOTTLE OF MILK

Driver Refuses to Sell to Janitor and Street Mission Follows.

Isaac Rosen, elderly janitor of an apartment house at No. 11 East One Hundred and Fifteenth Street met John Kahane of No. 605 East One Hundred and Thirtieth Street, a driver for the Borden Milk Company, at the door today and tried to buy from him a bottle of milk. Kahane explained he had none except that intended for customers and was under orders not to sell milk except to families with children.

Meyer Rosen, the janitor's son, joined an argument that started and a fist fight followed on the sidewalk.

Policeman Howard arrested Meyer Rosen and the driver. Magistrate Donald in Harlem Court fined Rosen \$5 and released him and his father, after trying to make the milkman violate orders.

WE handled during the year ending June 30, 1916, milk of known quality and quantity, of assured safety and cleanliness, at a Profit of About $\frac{1}{4}$ of a Cent per Quart

That means that we handle four quarts of milk to earn one cent. It means that your milk came to you backed by the most intensive service devoted to any food product, and at a profit that in any other line would be considered commercially unsafe.

We render a service to the consumer that the consumer wants and demands. We render that service at a cost that is economically low for the reason that our organization and resources have made it possible to operate efficiently.

No plan of milk distribution yet offered has been able to supersede our present efficient methods. No plan of milk distribution can succeed without the personal service that now goes with each quart of Borden's milk.

Our duty to the consumer is as clear to us as is our duty to the producer. We have tried to protect the one and at the same time made a stable market for the product of the other.

The recent advances in the cost of every factor entering into the distribution and handling of milk, which are beyond our control, obviously make the maintenance of the present schedule of retail prices impossible if the same standards of quality and service are to be preserved.
